

Compact 8

The Compact 8 is a portable, 8-inch touchscreen video magnifier with all-new features that brilliantly magnifies documents and objects.

Simple and effective solutions for the blind and visually impaired

Compact 8

Portable Video Magnifier

Brilliant Image Quality

Read magnified text in high-contrast colors and view objects from a short distance. The large 8-inch screen allows you to fit more text on the screen for maximum overview.

Dynamic Contrast

A proprietary feature that enhances the contrast of similar colors and provides sharper, clearer, and more defined images, making undetectable text visible again!

Live Panning Feature

Easily zoom in and out of your targeted live view and swipe (pan) in all directions to read and magnify this larger field of view—all without physically moving the device!

Key Benefits

- Magnification up to 30x
- 8-inch touchscreen—large field of view
- Vibrant, high-definition image quality
- Portable, low-profile design
- Live image panning—zoom in and out and swipe in all directions
- Line markers and masking features for focused reading
- Advanced features for color blindness
- Two HD cameras for document and distance viewing

The Compact 8 is a portable, 8-inch touchscreen video magnifier with all-new features that brilliantly magnifies documents and objects.

The Compact 8 has many built-in high-contrast color options for you to choose from. Select the one that is most comfortable for you!

Built-in Stand for Comfortable Viewing

Simply fold out the built-in reading stand and the Compact 8 is ideally positioned at a comfortable reading/viewing angle—no more hunching over!

Distance Viewing Feature

View objects or text from a short distance—like a café menu or a posted bus schedule. Use it in live-view or snap a picture and magnify and pan the displayed image as needed.

What's in the Box?

Compact 8 portable video magnifier, carrying case, universal power adapter, USB cable, and lens cloth.
