Optelec ClearNote
Video Magnifier with USB connectivity

Would you like a compact and lightweight video magnifier to use in combination with your laptop? Are you searching for a portable low vision solution with a fully flexible camera to access visual information around you?

Flexible extension of your laptop
Connected to any computer, the ClearNote provides you with magnified, high contrast live images of documents, presentation handouts, whiteboards and other relevant information around you. To save important information for future reference, the ClearNote allows you to effortlessly capture an unlimited number of screenshots to store on your computer.

Built-in intelligence
An ultra-flexible camera head rotates both vertically and horizontally, providing a crisp and clear live image from any distance. To quickly change your focus from a document to a whiteboard, previously selected settings of different camera positions are automatically recalled, making reading quicker and easier.

Easy set-up
To create the ultimate workstation, unfold the ClearNote and connect it to your laptop or desktop computer using the single USB connection. For added convenience, the ClearNote draws power from the computer, eliminating the need for an additional power supply.

Compatibility with magnification software
Running seamlessly with a number of popular screen magnification packages, the ClearNote software enables you to view both the computer image and the image from the ClearNote on one screen, just by a simple button press on your computer keyboard.

Key benefits:
- Continuous zoom magnification: 4-40 times on a 17-inch screen
- USB plug and play design - connect to a desktop or laptop PC
- Focus on text books, learning materials and around the room
- Handheld control pad - adjust the most frequently used functions
- Use at home and on the go: easy-to-carry folding design / protective pouch included

Flexible camera head:
- Auto-focus with 10 times optical zoom
- Tilt-and-swivel camera with two lenses for desktop and distance viewing
- Intelligent camera system: remembers the settings of the camera in both desktop and distance facing positions

Viewing features:
- Full colour for viewing photographs
- 22 high contrast semi-colour combinations for easier reading
- Split-screen / adjustable window size
- Image rotation allowing self-viewing
- Adjustable line marker to improve text tracking
- Capture an unlimited number of images for future reference
- Fully adjustable image control for brightness, contrast, saturation and hue.

Weight / Dimensions:
- 1.1 kg / 2.4 lbs
- 36 x 38.5 x 19 cm / 14.2 x 15.2 x 7.5 inches
- 35.5 x 8.5 x 19 cm / 14.2 x 3.3 x 7.5 inches (when disassembled)

Compatible with computers that run either:
- Dolphin SuperNova (version 12 or higher)
- ZoomText (version 9.04 or higher)

Minimum PC Specifications:
- USB 2.0
- Windows: XP (Service Pack 2), Vista (Service Pack 1), 7 (32 and 64 bits);
- Pentium 1.6 Ghz or higher
